 (Schedule Section)

Lyssa Royal Holt has been an internationally recognized trance channel, author, and seminar leader since 1985. She is best known for her groundbreaking books including *The Prism of Lyra*, and now for the *Galactic Heritage Cards*. She works extensively in Japan but lives in Arizona and offers workshops only twice per year in AZ. For more info see [www.lyssaroyal.net](http://www.lyssaroyal.net).

### Day 1: Conceptual Foundations

On day one we will explore the foundations of the card system, why it works, and how to access the bigger picture. We will also journey through sections of the cards (the ET species and themes) and examine their deeper meanings and how those meanings can be applied to life on Earth now. Included will be:

- \* In depth channeled material about the ET species and card themes
- \* Basics of the card system and its structure
- \* Simple holographic theory and how the deck can create profound alchemy within us
- \* Instructional sample readings by Lyssa for some group members
- \* The role of intuition in using the cards
- \* Experiential exercises

### Day 2: Practice and Methods

On day 2, we will go more into the experience of not only reading the cards, but opening ourselves to access the energy they can transmit to assist in our awakening process. The day will include:

- \* Layouts and ways to use the cards
- \* Practice readings (group work)
- \* Experiential energy transmissions based on the cards
- \* Learn to feel the energy of the archetypal species in the deck
- \* Sample readings from Lyssa
- \* Much more!
