

Celestial Alchemy:

Activating Personal Transformation through the Galactic Heritage Cards

New Workshop from Lyssa Royal Holt
April 15-16, 2017 | Phoenix, Arizona | Held at Storm Wisdom

In 2010, Lyssa Royal Holt channeled the *Galactic Heritage Cards* -- a set of 108 cards that mirrors the evolutionary process of humans as part of our galactic family. These cards are a tool that can offer profound insight into a person's spiritual journey on Earth as it is connected to the patterns brought with them from the stars. After giving hundreds of readings for clients and immersing herself in the immense depth of wisdom the cards can offer, she is now offering an experiential training workshop to help individuals learn to use the cards for their spiritual growth and to assist others as well.

This 2-day workshop will include the following:

Day 1: Conceptual Foundations

On day one we will explore the foundations of the card system, why it works, and how to access the bigger picture. We will also journey through sections of the cards (the ET species and themes) and examine their deeper meanings and how those meanings can be applied to life on Earth now. Included will be:

- * In depth channeled material about the ET species and card themes
- * Basics of the card system and its structure
- * Simple holographic theory and why using the deck can create profound alchemy within us
- * Instructional sample readings by Lyssa for some group members
- * The role of intuition
- * Experiential exercises

Day 2: Practice and Methods

On day 2, we will go more into the experience of not only reading the cards, but opening ourselves to access the energy they can transmit to assist in our awakening process. The day will include:

- * Layouts and ways to use the cards
- * Practice readings (group work)
- * Experiential energy transmissions based on the cards
- * Learn to feel the energy of the archetypal species in the deck
- * Sample readings from Lyssa
- * Much more!

What to Bring:

- * A recorder: You may record this workshop and you might especially wish to have a recorder for your group work.
- * Bring your *Galactic Heritage Cards* deck. We will have some extra decks, but we strongly recommend that you bring your own deck. Decks can "charge up" in events like this, and if you use your own deck you will

notice a difference! If you do not yet have a deck, you can purchase one at Storm Wisdom (www.stormwisdom.com) or Amazon.com.

* A notebook, pens, snacks, water bottle, etc.

Workshop Times:

Saturday 4/15 and Sunday 4/16 from 10am to 5pm both days, with a lunch break.

Preparing for the Event:

Because we will not have time to explore every detail of every card in depth, we recommend that you **read the booklet** that comes with the cards before the event. It is just a basic booklet and the workshop will go much more into depth.

Check out our **YouTube channel** at <https://www.youtube.com/channel/UCeuLbn0jJBUfqm2KEqkpLA>. We have a number of videos about the cards and we have also started a series called "Journey through the Galactic Heritage Cards." It may be a lot of info to watch, but you can get a great head start by viewing some of those videos, especially for the first cards in the series.

Read our **Card of the Month** section on our web site at <http://www.lyssaroyal.net/card-of-the-month.html>. Each month, we pick a card and channel a message for that month. The text is posted on our web site in this section, as well as posted on the Lyssa Royal Group Page on Facebook. This can give you a much more comprehensive understanding of individual cards in the deck and how they can apply to your life.

Registration:

Registration is handled by our company, Seed of Life Institute LLC. Please go to the schedule section at www.lyssaroyal.net or www.solischool.org to find the registration link, where price and further information is available. (Storm Wisdom is not processing registrations).

Please note that seats are limited for this workshop, as Storm Wisdom's classroom is somewhat small and this type of workshop is more conducive to smaller groups. We expect the workshop to sell out, so early registration is highly recommended.
